	NAME	STATUS
	Kick-off Workshop & Scope Sign...	Completed
	Current State Warehouse Proce...	Completed

PURPOSE

Primary project workspace. The hero card row summarises budget burn, hours used, completion %, and timeline at a glance. Below, 10 tabs expose every project dimension.

Apply Template

UI ELEMENTS

- Status Badges

In Progress + On Track shown inline with project title
- Hero Cards

4 metric cards: Revised Budget, Hours Used %, Completion %, Timeline remaining
- Alert Cards

Overdue (7), Blocked (0), At Risk (0), On Track (0) task counts
- Tab Bar

10 tabs: Tasks, Team & Allocations, Financials, Change Requests, CSAT, Documents, Forms, Timeline, Time, Updates
- Task List

List view with Name, Status, Priority, Assigned Resource, Due Date, Planned/Actual hours
- List/Board

Toggle between tabular list and Kanban board views
- Add Task

Inline task creation with auto-populate project/phase
- Columns

Configurable column visibility for the task table
- Apply Template

Import task structure from saved project templates
- Edit Project

Open project settings form (budget, dates, team, billing type)

KEY FEATURES

- 10-tab project workspace
- Budget card: \$1,250,000 revised, 50% used, \$625,000 invoiced
- Completion 45% based on task completion
- 11 tasks tracked with planned vs actual hours
- List + Board (Kanban) dual view for tasks
- Context-aware breadcrumb navigation

	NAME	STATUS	PRIORITY	ASSIGNED RESOURCE	DUE	PLANNED	ACT
	Freight Lane & Carrier Master D...	Completed	High	Sophie Laurent	2/7/2025	40h	
	Gap Analysis Report vs Blue Y...	Milestone	High	Priya Nair	2/28/2025	—	

PURPOSE

Demonstrates the at-risk project state. The "At Risk" health badge, amber colouring, and elevated overdue/blocked task counts draw immediate attention to projects needing intervention.

Apply Template

UI ELEMENTS

At Risk Badge

Amber "At Risk" badge displayed beside "In Progress"

Budget Card

\$780,000 SOW, only 20% used — pacing risk visible

Hours Card

24% hours used (340/1400) — under-tracked

Completion

28% task completion — behind schedule

Overdue Count

5 overdue tasks highlighted in red

Blocked Count

1 blocked task highlighted in orange

Task Priority

High-priority tasks shown first in default sort

Milestone Row

Special milestone task type with distinct icon

KEY FEATURES

Health status drives visual treatment across the entire page

Overdue counter triggers red alert in hero row

Budget pacing: \$156,000 invoiced of \$780,000 budget

340h tracked of 1,400h planned (24%)

Timestamp "Last refreshed May 5, 1:37 PM" with Refresh button

KPI Banner

6 metric cards: Portfolio Budget, Hours Burn %, Billed to Date, At Risk/Red count, Over-Allocated count, Open Resource Reqs

At Risk Card

Red "1" clickable card — filters consolidated table to at-risk projects

Over-Alloc Card

Amber "4 employees > 100%" trigger card

Project Table

All projects: Account, PM, Status, Health, Total Budget, Spent %, Planned h, Actual h, ETC, Billing Type

ETC / EAC accounts

Estimate to Complete and Estimate at Completion financial forecasting

Billing Type

Fixed Fee / T&M / Materials shown per project

Grouping

"No grouping" dropdown for Account/PM/Status grouping

Filters

4 filter dropdowns: Status, Health, Account, PM

Export CSV

Full portfolio export for executive reporting

KEY FEATURES

Portfolio Budget: \$3,400,000 across 6 projects

Hours Burn: 43% (2,745h of 6,360h)

Billed to Date: \$1,356,000 (\$191,500 pending)

Auto-refreshes every 5 minutes

Consolidated ETC and EAC financial projections

Clickable KPI cards filter the consolidated project table

Project	Account	PM	Status	Health	Budget	Spent	Planned	Actual	ETC
Fleet Telemetry MVP	Meridian Fleet Co.	Tom Bridges	Not Started	Green	\$220,000	0%	480.0	0.0	480.0
FrostLine WMS Implementation	FrostLine Cold Storage	Marcus Webb	In Progress	Green	\$1,250,000	50%	2000.0	820.0	1002.0
HarbourLink EDI Integration	HarbourLink Shipping	Daniel Osei	In Progress	Green	\$320,000	0%	560.0	95.0	433.0
Oracle WMS Cloud Migration	PrimePack Distribution	Priya Nair	In Progress	Green	\$340,000	25%	720.0	210.0	390.0

Section 13

Admin Settings

17-tab administration module covering user management, project/document templates, skills, job roles, tax codes, time categories, and workspace configuration.

User Management

User Configuration

User Management

Manage team members, roles, and permissions

User	Email	Role
AU Admin User	admin@ksap.tech	account_admin
AD Amara Diallo	amara.diallo@ksap.tech	Consultant
DO Daniel Osei	daniel.osei@ksap.tech	Integration Engineer
LH Leila Hassan	leila.hassan@ksap.tech	Change Manager
MW Marcus Webb	marcus.webb@ksap.tech	Project Manager
PN Priya Nair	priya.nair@ksap.tech	Solutions Architect
RK Raj Krishnamurthy	raj.k@ksap.tech	Data Engineer
SL Sophie Laurent	sophie.laurent@ksap.tech	Business Analyst

PURPOSE

Account-admin-only configuration panel. The Users tab manages team members, assigns roles, sets cost rates, and configures user-level permissions. Additional tabs govern all system-wide reference data.

UI ELEMENTS

- 1

Tab Bar

7 visible tabs: Users, Project Templates, Document Templates, Skills Matrix, Job Roles, Tax Codes, Time Categories, Task... (scrollable to 17 total)
- 2

Sub-tabs

Users tab has User Management + User Configuration sub-tabs
- 3

User Table

Columns: Avatar, User, Email, Role, Department, Status, Cost Rate, Skills, "i" menu
- 4

Role Column

System role assignment: account_admin, Project Manager, Consultant, etc.
- 5

Cost Rate

Billable cost rate per hour for margin calculations
- 6

Skills Button

Opens skill assignment modal per user
- 7

Status Badge

Active (green) / Inactive (gray) per user
- 8

Invite Email

Send email invitation to new team member
- 9

Add User

Direct user creation with role and department assignment
- 10

Row Menu ("i")

Edit user, deactivate, reset password, view audit log

KEY FEATURES

- 17-tab admin module
- 9 team members shown with cost rates (\$80–\$115/hr)
- Role-based access controlled at account_admin level
- Project Templates for standardised project structures
- Document Templates for contracts and reports
- Skills Matrix, Job Roles, Tax Codes configuration
- Time Categories for billing classification setup

Section 14

Notifications

In-app notification centre aggregating system events from all modules — invoices, health changes, timesheet approvals, milestone completions.

Invoice INV-2025-003 for VeloFreight Glo

4/26/2026, 3:58:35 PM • VeloFreight TMS Rollout - Phase 1

Mark All Read

Read

Clear Read (3)

Task 'Customs Document Generation Module' is blocked - waiting on client data.

4/26/2026, 3:58:35 PM • VeloFreight TMS Rollout - Phase 1

Read/Unread

Read

Project 'VeloFreight TMS Rollout - Phase 1' successfully closed.

4/26/2026, 3:58:35 PM • VeloFreight TMS Rollout - Phase 1

Project Link

Timestamp

Invoice INV-2025-001 for FrostLine Cold Storage approved - \$312,500.

4/26/2026, 3:58:35 PM • FrostLine WMS Implementation

Mark all read / Clear read controls

Badge count visible on sidebar bell icon across all pages

Milestone 'SAP EWM Blueprint & Fit-Gap Report' marked complete.

4/26/2026, 3:58:35 PM • FrostLine WMS Implementation

Mark all read / Clear read controls

Badge count visible on sidebar bell icon across all pages

Project 'Route Optimisation Engine Deployment' successfully closed.

4/26/2026, 3:58:35 PM • Route Optimisation Engine Deployment

Mark all read / Clear read controls

Badge count visible on sidebar bell icon across all pages

Draft invoice INV-2025-007 created for HarbourLink EDI Integration.

4/26/2026, 3:58:35 PM • HarbourLink EDI Integration

Read

PURPOSE

Aggregated activity feed for the authenticated user. Events are auto-generated by API triggers (health change, invoice overdue, timesheet approval, milestone complete). Supports bulk-read and selective clear.

UI ELEMENTS

Page Header

"Notifications" with unread count badge (15) on bell icon

Mark All Read

Marks all 15 notifications as read (one click)

Clear Read (3)

Removes the 3 already-read notifications from the list

Bell Icon

Unread indicator — white text on purple badge in sidebar

Notification Row

Bell icon, message text, timestamp, project hyperlink

Read/Unread

Dimmed rows = read; bold rows = unread with "Read" toggle

Project Link

Inline hyperlink to the related project (e.g., VeloFreight TMS)

Timestamp

Relative time shown (e.g., 4/26/2026, 3:58:35 PM)

KEY FEATURES

15 unread notifications shown in chronological order

Event types: invoice overdue, health change, task blocked, invoice approved, milestone complete, project closed, draft invoice created

Every notification links directly to the related project

Mark all read / Clear read controls

Badge count visible on sidebar bell icon across all pages

Appendix A – RBAC Permission Matrix

Role-based access control per module and action type

MODULE	account_admin	project_manager	consultant	client_user
Dashboard	✓	✓	' (own)	' (limited)
Projects List	✓	' (own)	' (assigned)	✓
Project Detail	✓	' (own)	Read + Time	Read only
Accounts	✓	Read	✓	✓
Prospects	✓	Read	✓	✓
Opportunities	✓	Read	✓	✓
Time Tracking	' (all)	' (approve)	' (own)	✓
Resources	✓	✓	Read	✓
Finance	✓	Read	✓	✓
Reports	✓	✓	Read	✓

Admin	✓	✓	✓	✓
Notifications	✓	✓	✓	✓

' = Full access ' (own/assigned) = Scoped to user's own records Read = Read-only ' = No access

Appendix B – Technology Stack & Architecture

Frontend libraries, build tooling, and API integration patterns

FRAMEWORK

React 18

Component-based UI with hooks. Functional components throughout.

BUILD TOOL

Vite 5

Hot-module replacement, optimised production bundling.

ROUTING

Wouter

Lightweight client-side routing — replaces React Router.

STATE/DATA

TanStack Query v5

Server-state caching, background refresh, optimistic updates.

UI COMPONENTS

shadcn/ui + Radix UI

Accessible, composable primitives with Tailwind styling.

STYLING

Tailwind CSS v3

Utility-first CSS. Custom theme extends Tailwind config.

FORMS

React Hook Form + Zod

Form state management with schema-based validation.

CHARTS

Recharts

Responsive SVG charts for KPI cards and analytics tabs.

ICONS

Lucide React

Consistent icon set across all modules.

DATE/TIME

date-fns

Immutable date formatting and manipulation.

DRAG & DROP

@hello-pangea/dnd

Kanban board drag-and-drop for Opportunities and Tasks.

HTTP CLIENT

Fetch API (native)

TanStack Query wraps fetch calls; no axios required.

AUTH

localStorage tokens

activeUserId + activeRole persisted; API validates on each request.

API SERVER

Express + Drizzle ORM

REST API on port 8080; PostgreSQL via Drizzle query builder.

DATABASE

PostgreSQL

Hosted on Replit with env var DATABASE_URL; schema-first migrations.

LANGUAGE

TypeScript

Strict mode; shared types between frontend and API packages.

MONOREPO

pnpm workspaces

@workspace/businessnow (frontend), @workspace/api-server (backend).

BusinessNow PSA

Frontend Blueprint Document

14 Modules · Live Screenshots · RBAC Matrix · Tech Stack Reference
